

Community Dialog on Economic Inequality

Thursday April 27th 6:30 PM

at The Haven

112 West Market St. Charlottesville

The purpose of the Community Dialog on Economic Inequality is to learn from each other and to develop proposals to address economic inequality in our area. Two basic principles will guide the dialog: it will be inclusive of all segments of our community and it will be collaborative, not adversarial. We regard economic inequality as one of the most important issues of our time, because it results not only in poor economic performance, but also in persistent social and health dysfunctions for all members of our community, both haves and have-nots.
